Here are some key points to make your resume ATS-compliant:

Format & Structure

Use a Simple Layout –

- Stick to standard resume formats like **reverse chronological or hybrid.** Avoid complex designs, tables, and columns.

Use Standard Headings – Such as:

- Summary / Professional Summary
- Work Experience
- Technical Skills
- Education
- Certifications
- Tools

Resume Content Optimization

- **Include Keywords from the Job Description -** using relevant industry-specific keywords
- **Use Simple Fonts –** Arial, Poppins, or Times New Roman (size 11–12 for text, 14–16 for headings).
- **Avoid Graphics & Images –** ATS cannot read infographics, logos, or decorative elements.
- **Use Bullet Points –** Present achievements and responsibilities using concise bullet points.

ATS (Applicant Tracking System)

An applicant tracking system (ATS) is a software employers use to manage the entire application process. This system collects, scans, and selects the applications.

- Add important keywords (Tools, Skills) to your resume that are important for the position you are applying for.
- Keep in mind all mentions must be relevant and true.

Final Tips

- Spell Check & Grammar – Errors can cause rejection
- Formate - Doc., Text, & PDF
- Keep it concise.
